CURRICULUM VITAE

Resume

A concise overview of my academic background, professional experience, and core competencies.

Summary

Lin Zhou is a graduate student pursuing a Master's degree in Digital Education, with a solid undergraduate background in Computer Science and Technology. I possess practical experience in software development and educational tutoring, combining technical programming capabilities with professional digital education theories. I am proficient in academic document writing, cross-team collaboration and personalized student learning guidance.

Experience

MAR 2023 — JUN 2023

Software Engineer

Shanghai Fenli Information Technology Co., Ltd.

- Participated in backend system development and architecture collaboration, completed functional programming iteration and daily maintenance of business systems.
- Inspected and fixed system bugs, optimized operational performance, and ensured stable and efficient system operation.
- Compiled standardized API documents and user operation manuals, and communicated development progress with cross-department teams.

JAN 2022

Teaching Assistant

Guanlan Education

- Corrected students' homework and examination papers, provided targeted academic Q&A and after-class tutoring services.
- Assisted formal teachers in classroom teaching arrangement, recorded students' learning difficulties and analyzed their learning situations.
- Sorted out teaching materials and optimized auxiliary teaching plans to improve overall learning efficiency of students.

Education

JUN 2026 — PRESENT

Master of Science in Digital Education

Xi'an Jiaotong-Liverpool University

- Learned core courses including educational leadership, global education governance and learning experience research.
- Focus on academic research on the application of generative AI in modern university digital education and curriculum design.

SEP 2019 — JUL 2023

Bachelor of Science in Computer Science and Technology

Shanghai Jianqiao University

- Studied core technical courses such as Java, C Language, Database System and Computer Network to build solid technical foundations.
- Cultivated logical thinking, technical problem-solving ability and standardized project document writing ability.

Skills

1. PROGRAMMING TECHNOLOGY

- Java
- C Language
- SQL Database

2. ACADEMIC ABILITY

- English academic reading
- Educational literature analysis
- Thesis & document writing

3. OFFICE TOOLS
